

Scout Expedition
July 2019

We started our walk at Tilsley park with a slow pace, in a few seconds we came across the first location for a geo cash, but we could not find it, we found out that the ladder to get the geo cash had been taken or stolen so we carried on with our hike. We walked on until it was the end of the path and we tried to find the next geo cash, but it was not there. I think someone stole it or it fell down the sign post. We carried on walking our route, during the route we found lots more geo caches. We had been walking for a while and I recognised where we were near Youlbury, we went to the shop then we went to where we were camping. We pitched our hammocks and tested them. Emily and I both toppled out the top one. We set up the kitchen and chilled. We cooked dinner and ate it. Some people played frisbee, while the camp fire was burning, then we had smores. We cleaned our teeth and headed to bed, apparently, I slept through a Frisbee landing on our hammocks. We woke up, had breakfast, packed up camp and walked to go-karting, we had lots of fun. After that we set off by walking to the shop which was closed. We got on walking the way back. We came across a few more geo caches. We had a bit further to go and we needed to walk faster. We picked up our pace and soon got to Tilsley park where an ice cream was handed to us. We got collected up and our expedition was over.
